

## PIPING ACCESSORIES

# DRESS UP YOUR PIPE!

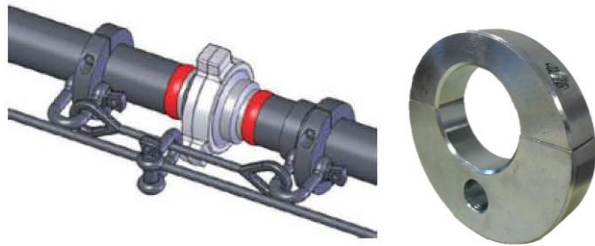

### ACME THREAD PROTECTORS

Hard plastic ACME thread protectors for hammer unions are available. Incorrectly tighten union because of damaged threads makes the use and operation unsafe. Essential care by protecting threads during handling will improve your safety level, and your equipment lifetime.

### PLUGS & TEST PLUGS

Male and female hammer union plugs are available in all figures and all sizes. When ported, plugs can be used for different purposes (pressure testing, end of line drainage or vent). All types of threads available (NPT, Autoclave, etc...)

### TIE-DOWN CLAMPS

Correctly fixed, the use of tie-down clamps may protect your installation and personal in case of unexpected failure under pressure and flowing condition.

Options:

- With or without shackle.
- Cable can be supplied at client request.

2" to 10" diameters available
